

REMARKS

Claims 1, 11 and 21-23 are pending in the application. With this amendment, claims 1 and 11 have been amended, and claims 21-23 have been canceled.

Claims 1 and 11 are rejected under 35 U.S.C. § 102(e) as being allegedly anticipated by Elliot et al. (U.S. Patent No. 5,987,102). Applicants respectfully traverse the rejection.

Claims 1 and 11 of the Applicants' claimed invention has been amended in a manner that the Applicants respectfully submit has rendered the current rejection moot. Elliot et al. fails to teach or suggest at least the features of receiving an indication that a PTT button has been depressed at a wireless telephone at each Internet, Intranet, or Extranet address; determining whether more than one wireless telephone has a depressed PTT button indication; arbitrating which wireless telephone is allowed to place a streaming voice data message on a server; selecting an arbitrated wireless telephone; placing a streaming voice data message on the server from the arbitrated wireless telephone; and sending the placed streaming voice data message to wireless telephones at the Intranet, Internet, or Extranet address.

Therefore, for at least these reasons, it is respectfully requested that the rejection be withdrawn and that claims 1 and 11 be allowed.

Claims 21-23 are rejected under 35 U.S.C. § 102(e) as being anticipated by Maggenti (U.S. Patent No. 6,295,284 B1).

With this amendment, these claims have been cancelled and therefore the rejection has been rendered moot.

CONCLUSION

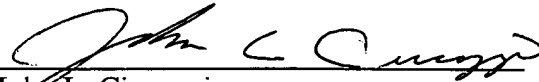

In light of the amendments contained herein, Applicants submit that the application is in condition for allowance, for which early action is requested.

Please charge any fees or overpayments that may be due with this response to Deposit Account No. 17-0026.

Respectfully submitted,

Dated: January 5, 2005
